CSA

An investment in your well-being

What is a CSA

A CSA is a socio-economic model of farming and food distribution where individuals pledge support to a farm operation and the grower(s) and consumers provide mutual support by sharing the risks and benefits of food production.

Advantages to the farmer

- Share the risk of farming with our members.
- Guaranteed a secure income paid in advance.
- Generally receive a higher and fairer return by cutting out the middle man.
- Opportunity to get to know the people who eat the food we grow and receive direct feedback from our members.

Advantages to the customer

- Develop a relationship with the farmer who grows their food.
- Eat very fresh food with all of the flavor and vitamin benefits.
- Increase understanding of how, where, and by whom food is grown.
- Experience improved health through better diet.
- Introduced to new vegetable varieties and recipes.
- A heightened sense of family excitement about meal preparation and dinner time.
